

Covid-19 information

Dear Customer, Our Partner

We are in a situation, where Finland has declared a state of emergency on behalf of our government. The same situation is with many other Countries and, as a result, borders are closed.

We have prepared for the situation by following the instructions of the government. The instructions of situation of covid-19 will change every day, so we will update our communication when needed.

The most important thing now is the safety of our employees, our partners and our customers and that is why we have decided as follows;

For the time being, communication with our customers and partners is done only by phone, email or other virtual tools.

Despite the precaution, work in our production will continue as normal as possible. We aim to deliver all orders as agreed. We currently have and or continuing to make stock of our products, but we kindly ask you to note that our stock of raw materials is not unlimited. If there are any problems with the supply of the raw material, we will advise as information becomes available.

Suomen Biathlon Ltd, Myllynkoneistus and Eko-Aims Ltd
the whole team is ready to serve you normally.

There may be delays in freight, currently the freight is moving as normal.
